Did you enjoy this look at our two couples after the end?

Ayaka and friends are starting a new chapter as college students.

Life doesn't always go smoothly, but I believe that these couples will overcome anything that gets in their way.

I hope you'll all root for them too!

Can't defy the Lonely Girl

Can't defy

Afterword

It's been 3 years since the series started...! Thank you all for reading! To get a bit personal, this was my first series, and I started as someone who didn't go to tech school or art college and was completely clueless. But over the last 3 years, slowly but surely, I think I grew along with Sora and Ayaka.

And in that way, "Can't defy the Lonely Girl" has undoubtedly been a very important part of my life. I owe a great deal to every one of you who watched over "Lonely Girl" with me, and I will always treasure being able to share it with you!

All stories must come to an end, but Sora and Ayaka still have their whole futures ahead of them. I hope you'll continue to cheer them on!

That's all for now. I can't wait to see you again in my next work.
Thank you so much!
